Mounting of nail sealing tape

1

- Stick the nail sealing tape to the counter batten
- **Nail sealing tape should not exceed the width of the counter batten**

2

- Use backing strip for simple and quick application:
- Fold back the starting part of the backing strip
- Backing strip is handy and can be removed quickly later

3

- Align the counter batten with the backing strip folded back on the roof underlay membrane

4

- Separate the backing strip and press the counter batten down

• Finally mount the roof underlay membrane by screwing or nailing the counter battens to a solid support
